

**NAME**

CPANPLUS::Dist::Autobundle - distribution class for installation snapshots

**SYNOPSIS**

```
$modobj = $cb->parse_module( module =>
'file://path/to/Snapshot_XXYY.pm' );
$modobj->install;
```

**DESCRIPTION**

CPANPLUS::Dist::Autobundle is a distribution class for installing installation snapshots as created by CPANPLUS' autobundle command.

All modules as mentioned in the snapshot will be installed on your system.
